Help your students develop their inferencing skills with *Webber® Inferencing Big Deck 2*. These cards provide prompts to help your students draw a conclusion about something not clearly stated based on what they already know about the situation. *Webber Inferencing Big Deck 2* has 100 large 5" x 7" photo cards each with six follow-up questions to help students understand and make inferences in five areas:

- *Emotions and Feelings (How does helshe feel?)*
- *Jobs and Occupations (What does helshe do?)*
- *Time and Seasons (What time of year/season is it?)*
- *Actions (What is helshe doing?)*
- *Cause and Effect (What might happen?)*

To use this deck, show students the picture and ask them the first question. For additional inferencing and language practice, read the short story on the back of the card and ask the follow-up questions. Use the last question to begin a discussion with your students about their opinions and feelings, or how they would handle different situations.

Jobs and Occupations

- | | |
|---------------------|----------------------------|
| 1. Reporter | 11. Psychologist/Counselor |
| 2. Singer | 12. Architect |
| 3. Dairy Farmer | 13. Electrician |
