About This Book
Questions This Book Will Answer Chapter Contents Other Helpful Tools  The Nonnegotiables of Effective Differentiation  A Focus on Learners A Model for Effective Differentiation  Brain Research and Differentiation  1
Chapter Contents Other Helpful Tools  The Nonnegotiables of Effective Differentiation  A Focus on Learners  A Model for Effective Differentiation  Brain Research and Differentiation  1
Other Helpful Tools  The Nonnegotiables of Effective Differentiation  A Focus on Learners  A Model for Effective Differentiation  Brain Research and Differentiation  1
The Nonnegotiables of Effective Differentiation
A Focus on Learners
A Model for Effective Differentiation
Brain Research and Differentiation
Differentiation in a Nutshell
Mindset, Learning Environment, and Differentiation
What Are Mindsets?
The Effective Teacher's Mindset
Teachers Have a Lifelong Impact
The Classroom Must Feel Safe and Secure
All Students Want to Succeed
Teachers Must Meet the Social-Emotional Needs of Students
Technology Is Affecting Social Skills
Empathy Is Very Important
Students Should Feel a Sense of Ownership of Their Education
Teachers Should Identify and Reinforce Each Student's Areas of Competence

	Teachers Should Address Fears of Failure and Humiliation	28
	Discipline Is a Teaching Process	28
	Fixed and Growth Mindsets	29
	Mindset, Teaching, and Learning	29
	Fixed and Growth Mindsets and Differentiation	31
	Classroom Environments and Differentiation	33
	Learning Environments, Student Affect, and Differentiation	34
	Learning Environments, Student Cognition, and Differentiation	36
	<u>Exercise 2.1</u> Questions for Teachers About Mindset, Learning Environment, and Differentiation	. 39
	Exercise 2.2  Questions for Teachers About Student Affective Needs, Learning Environment, and  Differentiation	. 41
	<u>Exercise 2.3</u> Reflections on Cognitive Traits of Learners and the Environments That Support Those Traits	45
	Exercise 2.4  Questions for Teachers About Student Cognitive Needs, Learning Environment, and  Differentiation	47
3 cı	urriculum and Differentiation	
	Quality Curriculum Is Organized Around Essential Content Goals	51
	Curriculum Races Are Not Brain Friendly	52
	Specificity Is Important	54
	Quality Curriculum Is Aligned	55
	Quality Curriculum Focuses on Student Understanding	56
	Learning Tasks Should Extend Understandings	58
	Understandings Build Neural Networks	59
	Different Pathways Lead to Common Goals	60
	Quality Curriculum Engages Students	61
	Quality Curriculum Is Authentic	62
	Quality Curriculum Is Effectively Differentiated	64
	Exercise 3.1  Questions for Teachers About the Quality of a Curriculum Unit	65
<b>4</b> cı	assroom Assessment and Differentiation	67
•	Baggage From the Past: Negative Images of Classroom Assessment	67
	Testing and Stress	
	Stress and Recall	69
	Stress and Timed Tests	70

	A More Productive View of Assessment
	Purposes of Classroom Assessments
	Assessment of Learning
	Assessment for Learning
	Assessment as Learning
	Assessment and Differentiation
	Grading and Differentiation
	The Importance of Clear Goals
	Exercise 4.1
	Questions for Teachers to Ask to Determine Whether an Assessment Is Effective
<b>5</b> p	Differentiating in Response to Student Readiness
	Readiness Versus Ability
	Why Addressing Readiness Matters
	The Challenge of ZPD in the Classroom
	Support From Neuroscience
	Bridge Building
	The Role of Classroom Elements in Planning for Readiness Differentiation
	Learning Environment
	Curriculum
	Instruction
	Assessment
	Classroom Management
	Some Guidelines for Differentiating in Response to Student Readiness
	Content, Process, and Product Differentiation Based on Student Readiness
	Content
	Process
	Product
	Learning Contracts and Tiering for Differentiation
	Learning Contracts
	Tiering
	<u>Exercise 5.1</u> Questions for Teachers About Differentiating Instruction Based on Student Readiness 114
	<u>Exercise 5.2</u> Activities for Differentiating Content, Process, and Product Based on Student Readiness 117
6 D	Differentiating in Response to Student Interest
J	Attend to Student Interest
	Why Student Interests Matter
	Neuroscience and Interest

Seven Themes for Address	sing Student Interest in the Classroom	27
The Role of Classroom Ele	ments in Planning for Interest-Based Differentiation	29
Learning Environment	t	29
Curriculum		30
Assessment		30
Classroom Managem	ent	31
Guidelines for Differentiati	ng in Response to Student Interest	31
Guidelines for Differentiati	ng Content, Process, and Product Based on Student Interest 13	35
Content		36
Process		37
Product		37
Guidelines for Differentiati	ng With Expert Groups and Sidebar Studies	38
Expert Groups		38
Sidebar Studies		10
Exercise 6.1		
Questions for Teachers Ab	out Differentiating Instruction Based on Student Interest	13
Exercise 6.2		
Activities for Differentiating	g Content, Process, and Product Based on Student Interest 14	ł6
rentiating in Respons	se to Student Learning Profile	9
	se to Student Learning Profile

8 Managing a Differentiated Classroom
A Common View of Classroom Management
An Alternative View of Classroom Management
Eight Principles of Leading Students
Beginning to Lead
Helping Students Examine Their Learning Differences
Graphing Strengths
Trying It on for Size
Visiting the Doctor
Making Paper People
Helping Students Think About Differentiation
Some Guidelines for Managing a Differentiated Classroom
Use Anchor Activities
Consider Using Assigned or Home-Base Seats
Set Basic Parameters
Develop Methods for Assigning Students to Groups
Develop Methods for Giving Directions for Multiple Tasks
Develop Procedures for Students to Get Help When the Teacher Is Busy
Leading and Managing Successfully
Exercise 8.1
Some Guidelines to Ensure Effective Group Work
Epilogue
References and Resources
