Skillstreaming in Early Childhood
New Strategies and Perspectives for Teaching Prosocial Skills
Dr. Ellen McGinnis and Dr. Arnold P. Goldstein

Papercover, 6 × 9, 316 pages

Shows how to teach prosocial skills to preschool and kindergarten children. The Skillstreaming approach utilizes modeling, role playing, performance feedback, and transfer training (homework). The book covers 40 prosocial skills, such as trying when it's hard, knowing when to tell, dealing with teasing, and waiting your turn. The skills are divided into six areas: Beginning Social Skills, School-Related Skills, Friendship-Making Skills, Dealing with Feelings, Alternatives to Aggression, and Dealing with Stress. The authors include strategies for managing problem behaviors and for building positive relationships with parents.

Table of Contents
Chapter 1 Introduction
Chapter 2 Skillstreaming Program Directions
Chapter 3 Skillstreaming Arrangements
Chapter 4 Skillstreaming Teaching Procedures
Chapter 5 A Sample Skillstreaming Session
Chapter 6 Skills for Preschool and Kindergarten Students
