How to Play Articulation Rolling Cubes

Basic Therapy:

- . Select one (or more) target cube(s) you desire to practice (P, B, or M).
- . Select the number cube and the action cube.
- . Roll the cubes and look at the face up images.
- Say the target image the number of times indicated on the number cube.
- Say the target image again, the same number of times while performing the action shown on the action cube.
- Continue rolling and practicing.

Carryover Therapy:

- Select the target cubes you desire to practice (P. B. or M).
- Roll the cubes, look at the face up images, and name them.
- Tell a story that links together all of the face up
- If multiple students are in a group session, take turns letting each student add to the story based on their face up images.
