

Indians think belly buttons are important. Vishnu is an Indian god. Many Indians believe men were born from his belly button. This makes belly buttons special. They're the link between heaven and earth.

Some people think eating seeds is bad. Seeds will stick to stomachs. They'll grow. They'll become trees. The trees will come out of belly buttons.

Most belly buttons are pushed in. About 4 percent stick out. Some people think they can fix belly buttons that stick out. They tape a coin over the belly button. They think this will push belly buttons in.

Truth: Stomachs have acids. This would kill seeds. Seeds can't grow inside living people. They can grow inside dead people.

Spotlight Biography
